SPEED GRAPHICS TAKES THE LEAD IN 'THE FAST AND THE FURIOUS II'

April 14, 2003 – Fort Lauderdale, Florida – When Michael Dickman founded his company, Speed Graphics and Sign Design a mere one year ago, his primary ambition was to turn his passion for unique and one-of-a-kind custom car graphics into a lucrative business. But when Michael teamed up with Key Largo-based artist Donald Shank to design new graphics for his new SlamWrap series of 'Tear' graphics, he never expected that a vehicle featuring one of Donald's first designs would be selected to appear as a high-profile extra in the FAST AND THE FURIOUS II.

The vehicle's owner, George Hart, states, "I fell in love with the Evil Monster Tear SlamWrap as soon as I laid eyes on it. I wanted expensive-looking graphics on my 2000 Dodge Dakota pick-up, but the cost to have what I wanted professionally airbrushed was prohibitive. The beauty, detail and uniqueness of the Evil Monster Tear graphic is as impressive as any high-quality airbrushed graphics I have ever seen. The fact that my car was selected by the producers of the FAST AND THE FURIOUS II to appear as an extra is a testament to the quality, beauty, and distinctiveness of Speed Graphics' SlamWraps'."

Speed Graphics offers many off-the-shelf SlamWraps featuring unique and elaborately impressive dramatic designs, graphics, and effects including shadows, reflections, gradients (color fades), and intricate 3D effects. Speed Graphics has the unique, low-cost head-turning alternative graphics that car aficionados have long sought for their one-of-a-kind vehicle, boat, and aircraft. Speed Graphics are durable, backed with a two year warranty against fading, and are incredibly easy to apply. Speed Graphics also offers a SlamWraps Customization service for those vehicle owners that want to produce and apply their own completely unique custom graphics to their vehicle.
